

To Elon Musk,
CEO,
Tesla, Inc.

Dear sir,

As a member of Team Abhiyaan from IIT Madras, a group working on autonomous driving technology, it is my great pleasure to invite you to sponsor our team for the upcoming AutoDrive challenge hosted by SAE International.

Team Abhiyaan is a multidisciplinary student group that's committed to working on creative approaches to ground navigation technology and autonomous driving. It is a part of the Center For Innovation club of IIT, Madras.

We have placed second in the 2019-Ground vehicle challenge, hosted in Michigan, USA and are currently in the finals of the Indy Autonomous Challenge(2020-2021).

We think Tesla, a pioneer in software and manufacturing of autonomous cars, would be the perfect fit to sponsor, and by extension guide us, in our pursuit for growth and victory.

Team Abhiyaan, being an IIT CFI group, carries with it, huge influence and brand value and is a team that is looked up to by thousands of people, in India and around the world. By sponsoring us, you will be a part of the journey of a young and energetic group of students that seek to change the world. After all, the brand value IIT carries in India is equivalent to that of Tesla. We believe you will be benefitted too.

We expect financial support and parts for our projects along with your guidance.

Your cooperation is very much valued.

If you are interested in fostering our dreams and imagination, please leave a letter to Me21b001@CFI.com or drop a call to +91 9900990099. We can arrange a zoom meeting as per your convenience to discuss the details. We would love to hear from you

Yours faithfully,

Aahana Hegde, 1st year BTech student at IIT Madras
